

Paras Goyal

Motivated developer skilled in C/C++, HTML, CSS, and JavaScript with a strong foundation in both software development and web technologies. Experienced in building efficient, scalable code for web applications and enhancing user interfaces. Proven ability to work in collaborative environments, continuously seeking opportunities to innovate and improve processes. Committed to delivering high-quality solutions and staying updated with the latest industry trends.

Projects

Sorting Algorithm

July 2024 - October 2024

- Built an interactive React app to visualise sorting algorithms (Bubble, Merge, Quick Sort) with real-time animations, user-selected speeds, and algorithm choices.

Employee Review System'

Feb 2024 - June 2024

- Built a full-stack application for managing employee reviews, enabling role-based access for managers and employees to assign, track, and evaluate performance feedback. Integrated MongoDB, Express, React, and Node.js to streamline review workflows and enhance performance management.

Education Website

June 2024 - August 2024

- Designed and developed the frontend of an educational platform using React, focusing on responsive UI, smooth navigation, and interactive components for a seamless user experience.

Internships

July 2023 - August 2023

- During this period of my Internship, I develop a Hotel Management System using python and MY SQL
